3M Health Information Systems
Booth 3334

Contact: Jolie Gordon, Marketing Communication Specialist
ejgordon@mmm.com 801-560-4788

Best known for our market-leading coding system and ICD-10 expertise, 3M Health Information Systems delivers innovative software and consulting services designed to raise the bar for clinical documentation improvement, computer-assisted coding, mobile physician applications, case mix and quality outcomes reporting, and document management. Our robust healthcare data dictionary and terminology services also support the expansion and accuracy of your electronic health record (EHR) system. With nearly 30 years of healthcare industry experience and the know-how of more than 100 credentialed 3M coding experts, 3M is the go-to choice for 5,000+ hospitals worldwide that want to improve quality and financial performance.

Access
Booth 860

Contact: Cody Strate, Director of Sales
cody.strate@accessefm.com 303.257.3183

Access is the world’s leading electronic forms (e-forms) management, automation and workflow software provider. Our solutions transform any paper-intensive forms process into a paperless, collaborative one.
Stop by HIMSS Booth 860 to see how Access can help you achieve paperless:

- Registration and consent forms on demand with electronic signatures & barcodes
- Human resources, financials and clinical processes, including new employee onboarding, capital requests, and physician referrals
- Clinical data bridge to your enterprise content management system

Learn more at www.accessefm.com.

---

**AirStrip Technologies, Inc.**

**Booth 870**

Contact: Kimberly Kuzawa, Executive Assistant
Kimberlykuzawa@airstriptech.com
832.330.4419

Native applications from AirStrip Technologies securely send critical patient information from hospital monitoring systems, bedside devices, electronic health records and home devices to a clinician's smartphone or tablet. FDA cleared, CE Mark certified and designed to meet HIPAA security requirements, AirStrip applications are powered over wired and wireless networks, delivering live patient data anytime, anywhere.

---

**ANX**

**Booth 13429**

Contact: Mike Nunez, Director, Healthcare Business Development
nunezm@anx.com
806.797.2923

ANXeBusiness provides innovative solutions that transform the exchange of data throughout the entire healthcare community. This solution set creates an easy, reproducible, cost efficient and secure exchange between hospitals and laboratories. This allows the hospital and laboratory to focus on what they do best; the complete patient continuum of care. To learn more about ANXeBusiness, please visit us at www.anx.com.
API Healthcare

Booth 2617

Contact: Kenny Amburgey, Vice President of Client Strategies
kenny.amburgey@apihealthcare.com
262.385.7732

Solutions designed for the unique demands of the healthcare industry. API Healthcare solutions create the crucial link that allows you to effectively balance the financial realities of healthcare with the delivery of high quality patient care. Robust integration and data driven staffing tools are what make API Healthcare workforce management solutions powerful:

- Fully integrated, single platform technology
- Complete multi-dimensional insight into all areas of an organization allow for intuitive, cost effective decisions
- Data driven staffing tools ensure the right patient and the right caregiver match, every time
- Streamlines processes, increases efficiency and optimizes every aspect of your workforce

Aspen Advisors

To schedule a meeting:

Contact: Daniel Herman, Managing Principal and Founder
info@aspenadvisors.net
800-697-4350

Aspen Advisors is a professional services firm with a rich mix of respected industry veterans and rising stars who are united by a commitment to excellence and ongoing dedication to healthcare. Our experienced team is highly skilled in all aspects of healthcare technology. We understand the complexities of healthcare operational processes, the vendor landscape, the political realities, and the importance of projects that are
executed successfully – the first time. Every client is important to us, and every project is critical to our reputation. Established in 2006, we’ve grown significantly year-over-year and have earned accolades for our culture and growth.

We were named an “Up and Comer” by Healthcare Informatics in 2010 and ranked #20 in Modern Healthcare’s list of the top 100 “Best Places to Work in Healthcare” in 2011. Our hallmarks are top quality service and satisfied clients; we’re proud of our KLAS rankings and that each of our clients is 100% referenceable. For the last four consecutive years, Aspen has ranked in the Top 5 in KLAS’ “Best in KLAS Awards” report in the Planning and Assessment category and were included in the Top 20 in the Clinical Implementation Supportive market segment. Interested in learning more about how Aspen Advisors can help you address the issues on your top priority list? Or looking to join a firm where healthcare IT consultants aren’t commodities, communication isn’t curbed, and potential never gets stuck in a pigeon hole?

To learn more about Aspen Advisors – either as a prospective client or prospective associate, please consider scheduling an in-person meeting at HIMSS or visit us at http://www.aspenadvisors.net.

AT&T

Booth 3829

Contact: Deborah Sunday, Marketing Director
ds823e@att.com
678.230.3440

AT&T ForHealth℠ is committed to serving the technology needs across the continuum of care — from hospitals to physicians to patients. Our suite of innovative wireless, cloud-based and networking services and applications empower clinicians by placing vital patient health information at their fingertips. Learn how to rethink healthcare delivery by visiting AT&T ForHealth in Booth #3829 at HIMSS12 in Las Vegas. Also, be sure to visit and hear AT&T speakers in the HIMSS Knowledge Centers for Mobile Health (#12928, Hall G, Kiosk 14), Cloud Computing (#13624, Hall G, Kiosk 5) and Accountable Care Organizations/Value-Based Purchasing (#6466, Hall D, Kiosk 8).

---

Aventura

Booth 8300

Contact: Brian Stern, VP of Sales
info@aventurahq.com
888.484.4643
Aventura improves the current workflow of doctors and nurses. We give clinicians the information they need, when and where they need it. Our context aware computing intelligence orchestrates technologies already in place making them responsive to the user. The result is improved clinician satisfaction, increased EMR use at the point of care, and an increased focus on the quality of care.

Awarepoint Corporation

Booth 3412

Contact: Merrie Wallace, Executive Vice President, Product Solutions and Marketing
marketing@awarepoint.com
888.860.3463

Awarepoint's aware360Suite provides intelligent workflow solutions that meet departmental and enterprise-wide patient tracking needs. The solution visualizes patient flow without requiring personnel to manually update care status information. Patient location, movement and interactions with tagged personnel and clinical equipment trigger updates to the web-based software, which employs workflow rules to recognize patient care milestones. By improving patient visibility throughout the enterprise, Awarepoint helps administrators and clinicians to advance the QUALITY of care, the EFFICIENCY of care, the EXPERIENCE of care, and the ECONOMICS of care.
Booth 3926
Contact: Katelyn MacKay, Business Development Coordinator
kmackay@beaconpartners.com
781.681.7407
As one of the largest healthcare management consulting firms, Beacon Partners is chosen by organizations in the healthcare community to provide advisory services to improve overall operational, clinical and financial performance with the adoption of information technology. With our strategic approach and depth of experience, Beacon Partners is qualified to help organizations navigate the challenges in healthcare and optimize their potential to deliver the highest possible level of patient care.

BESLER Consulting
To schedule a meeting:
Contact: Jim Hoffman, Chief Technology Officer
jhoffman@besler.com
732.392.8214
Available at HIMSS Tuesday or Wednesday
BESLER develops software tools and provides consulting services that help acute care hospitals get paid everything they deserve. Our BVerified (tm) online solutions allow our customers to manage underpayment recoveries that have traditionally been accomplished via a consulting engagement, providing typical saving of 50%. We’ve just launched our two newest products and we’re the only company with an end-user technology solution to address the Medicare IME and Transfer DRG underpayment issues.

Billian's HealthDATA
Booth 7707
Contact: Jennifer Dennard, Social Marketing Director
jdennard@billian.com
678.569.4872
Billian's HealthDATA is the leading provider of comprehensive market intelligence on the healthcare industry,
covering facilities across the continuum of care - from Hospitals and Hospital-Affiliated Physicians to Long Term Care. Billian's dedication to providing high-quality data via products like the Portal, coupled with partner company Porter Research's custom market research services, provides customers with healthcare business intelligence about multiple markets in scaleable formats.

**Bottomline Technologies**

**Booth 12928 (Mobile Health Knowledge Center, Hall G)**

Contact: Sarah Stevenson, Healthcare Marketing Manager
sstevenson@bottomline.com
603.380.8577

For more than 20 years, Bottomline has been focused on software applications that optimize document-driven processes. As a result, Bottomline possesses both the proven solutions and the tested domain expertise to deliver consistent customer value and significant return on investment. Bottomline's medical forms solutions are used by 900+ hospitals to reduce costs, increase productivity & improve patient safety. Our goal is to help hospitals, clinics and practices adopt electronic medical records – from registration and consents to clinical documentation – an evolution that has been plagued by counter-intuitive approaches that aren’t as flexible and fast as paper.

**CAP Professional Services**

To schedule a meeting:

Contact: Chip Perkins, Managing Director
cperkins@cap.org
847.832.7280

CAP Professional Services, a division of the College of American Pathologists, works to align health care information and technology to drive performance and quality. We are advancing health information excellence by focusing on services such as: Health Information Strategies and Management, Clinical Data and Terminology Services, and Laboratory Services. For more information, call 847-832-7700 or email capsts@cap.org.
**CapSite**

To schedule a meeting:

Contact: Bryan Fiekers, Director of Business Development  
bryan.fiekers@capsite.com  
802.383.8205

CapSite is a healthcare technology research and advisory firm. Our mission is to help healthcare providers and vendors make more informed strategic decisions. The CapSite Database is the trusted, easy to use online database, providing critical knowledge and evidence based information on healthcare technology purchases. CapSite™ data provides detailed transparency on healthcare technology pricing, packaging and positioning. When it all comes to healthcare technology research, it helps to see all the details. Those details are now available with CapSite™

---

**Capsule Tech, Inc**

**Main Booth 6141**  
HIMSS Intelligent Hospital Pavilion Booth 12442  
Interoperability Showcase Booth 11000  
Medical Devices Integration Knowledge Center Booth 14647

Contact: Heather Hitchcock, Vice President of Global Marketing  
marketing@capsuletech.com  
978.482.2337

Capsule is the leading provider of medical device integration. Capsule's Device Connectivity Solution is the most proven, vendor neutral solution available for device connectivity. It features a patient-centric design that is completely flexible and scalable and integrates with existing technologies and clinical workflows. Stop by our booth 6141 to see why over 1000 hospitals have chosen Capsule for device integration.
**Command Health**

**To schedule a meeting:**

Contact:
Evan Frankel, Director of Product Management
evan.frankel@commandhealth.com
303.301.0430

Command Health is the leader of narrative note technology, focusing on unifying clinical documentation from disparate sources across the continuum of care. Combining verbal interaction with visual integration, Command Health enables the efficient and accurate capture of patient data that is easy to find, use, share and search by converting locked, inaccessible data into actionable, meaningful information. Using proprietary natural language processing (NLP) technology combined with human intelligence, Command Health delivers the most comprehensive clinical data available, helping providers reduce costs, assess risk and manage outcomes.

---

**CTG Health Solutions**

**Booth 2070**

Contact: Carl Ferguson, Jr., Managing Director
carl.ferguson@ctghs.com
214.695.4227

CTG Health Solutions is a leading healthcare IT consulting firm providing strategic, clinical, financial, operational, and technology solutions. Offering advisory services, strategic/tactical planning, vendor selection, implementation, legacy system support, program/project management and advance technology services, CTG helps healthcare organizations address regulatory mandates of meaningful use, 5010, ICD-10, HIE, electronic medical records, accountable care and evolving health reform. CTG Health Solutions is a business unit of CTG (NASDAQ: CTGX) a publicly owned IT services and solutions company founded in 1966 that generated revenue

Experience matters. Over the last 25 years, CTG Health Solutions has provided healthcare IT, and operational and strategic consulting support to over 600 healthcare organizations. Since 2008, CTG has continuously been named to Healthcare Informatics top 100 healthcare IT providers and the Modern Healthcare lists of the largest healthcare management consulting firms. CTG was also cited in the March 25, 2010, issue of Information Week as one of the top three firms for healthcare organizations looking for help in implementing EMRs and other health IT investments.

For more information, visit www.drfirst.com.

eClinicalWorks

Booth 531

Contact: Heather Caouette, Marketing
heather.c@eclinicalworks.com
508.836.2700

eClinicalWorks offers ambulatory clinical solutions consisting of EMR/PM software, patient portals and a community health records application. With more than 180,000 providers and 370,000 healthcare professionals across all 50 states using its solutions, customers include physician practices, out-patient
departments of hospitals, health centers, departments of health and convenient care clinics. At HIMSS, please visit the eClinicalWorks booth to see the latest in iPad and patient applications, community analytics and ACO capabilities.

Elumin Healthcare Solutions

To schedule a meeting:
Contact: Mark Williams, CEO & President
mwilliams@eluminhs.com
425.369.8211

Elumin works with healthcare organizations across the country to improve quality, efficiency and their bottom line through the use of information technology throughout the continuum of care. Our work ultimately leads to greater clinician, physician, staff and patient satisfaction. Many of Elumin's consultants are clinicians, and many have worked in hospitals and physician practices as business and clinical leaders. Many are certified and experienced in premier technologies such as Allscripts, Epic, Cerner, NextGen and Siemens. On average, our consultants have more than 15 years of experience. We strive to achieve 100% referenceability among our clients. Elumin is 100% focused on healthcare.

Elumin's services include: advisory services, system implementations, data conversions, clinical optimization, revenue cycle management, legacy platform support, ICD-10, 5010 migration, and interim staffing. Our team of experienced healthcare professionals thrives on implementing best practices, optimizing technology and guiding clients through the change management process.

Elumin representatives will be attending the 2012 HIMSS conference Monday Feb. 20 – Friday, Feb. 24. They look forward to meeting new healthcare industry leaders and sharing insight on trending topics. Let us help you bring light to the best of healthcare technologies' promise.

Encore Health Resources

Booth 123

Contact: Randi Fiedler, Director, Sales Operations
rfiedler@encorehealthresources.com
832.289.0923

Encore Health Resources helps implement and optimize EHRs and complex clinical systems to get value from the data. We do this through our tools, knowledge base and proprietary approach, and by employing healthcare IT professionals with deep operational experience.
Encore was formed by healthcare IT veterans Dana Sellers and Ivo Nelson. We are one of the fastest growing independent consulting firms in the history of our industry. That rapid growth is attributed to our principles’ sterling reputation, our staff’s depth of experience, and our commitment to remaining 100% referenceable with each and every one of our clients. Encore has consistently been named one of the “Best Places to Work in Healthcare” by Modern Healthcare magazine.

ESD
Booth 4616
Contact: Jessica St. John, Director of Business Development
jstjohn@contactesd.com
419.841.3179

ESD is a leading healthcare IT consulting firm that assists organizations implement new or updated healthcare information technology. Experienced clinical consultants provided by ESD work closely with hospitals, clinics and health systems to evaluate current capabilities, establish clinical transformation strategies and assist clinicians in the transition to new or updated solutions, with the end goal being a successful transition to new technology. ESD’s headquarters is located in Toledo, Ohio and has five satellite offices located in Atlanta, Detroit, Cincinnati, New York and Houston.

Whether it’s time to implement a whole new system throughout your organization or just a component to one department, we have the experience and resources to both complement your team, and meet your goals.

Etransmedia Technology, Inc
Booth 13635
Contact: Craig Cane, VP, Business Development
craig@etransmedia.com
845.594.7247

Etransmedia Technology, Inc is a premier provider of information solutions to the healthcare industry, delivering comprehensive integrated software, service and connectivity solutions to simplify critical functions in the healthcare community. Etransmedia is committed to providing the right solutions to build an effective
community of care, driving revenues and efficiencies for ambulatory, acute and diagnostic facilities, and increasing the availability of information to providers making critical care decisions.

First Databank (FDB)
Booth 2338

Contact: Denise Apcar, Brand Communications Manager
dapcar@fdbhealth.com
800.633.3453

First Databank (FDB) provides drug knowledge that helps healthcare professionals make precise medication-related decisions. With thousands of customers worldwide, FDB enables our information system developer partners to deliver a wide range of valuable, useful, and differentiated solutions. As the company that virtually launched the medication decision support category, we offer more than three decades of experience in transforming drug knowledge into actionable, targeted, and effective solutions that improve patient safety and healthcare outcomes. For a complete look at our solutions and services please visit fdbhealth.com

Fulcrum Methods
Booth 13247 Kiosk 6

Contact: Rick Beberman, Corporate Programs
rbeberman@fulcrummethods.com
510.287.3927

Fulcrum Methods has developed toolkits to assist hospitals and health systems with project management and meaningful use. We deliver work plans, guidebooks, libraries of deliverables, and online assessment tools to help organizations with vendor selection, systems implementation, long-range planning, establishing a program management office, managing organizational change, and meeting meaningful use requirements.

We have a great client list - Stanford University Hospital & Clinics, Lucile Packard Children's Hospital, University Hospitals, MaineHealth, University of Kentucky HealthCare, John Muir Health, Community Medical Centers, and NorthBay Healthcare, among others. Our tools are encyclopedias of best practices and designed to develop core competencies, reduce execution risk, accelerate project rollout, and keep organization knowledge in-house.
GetWellNetwork

Booth 7910

Contact: Tony Cook, Vice President Marketing
tcook@getwellnetwork.com
202-321-9396

GetWellNetwork entertains, educates, and empowers patients throughout the patient journey using the bedside TV in the hospital, mobile devices, Web or Cable TV at home. Our patient-centered approach improves both satisfaction and outcomes for patients and hospitals. Additionally, the company extends the value of existing IT investments by integrating seamlessly to leading HIT systems including Cerner, McKesson, Epic, Meditech, GE and Siemens.

GetWellNetwork is recognized by KLAS® as the leader in Interactive Patient Systems and is exclusively endorsed by the American Hospital Association. More information about GetWellNetwork can be found at www.GetWellNetwork.com.

Harris Corporation

Booth 834

Contact: Amy Ferretti, Vice President, Marketing
amy.ferretti@harris.com

Since 1990, more than 1,000 hospitals worldwide have implemented Iatric Systems solutions; optimizing patient care and staff workflow in clinical, financial and administrative areas. Iatric Systems was acknowledged on the Healthcare Informatics Top 100 Healthcare IT Revenue list in 2009/2010/2011 and the Modern Healthcare Top 100 Best Places to Work in Healthcare IT in 2009/2010/2011.
Get your chance to win an iPad 2 during the HIStalk Booth Crawl: Be sure to stop at the Iatric Systems booth for the chance to win the perfect, portable tool for checking e-mail, surfing the Web, playing games, reading books and visiting important Websites like Iatric.com.

ICA

Booth 4831

Contact: John Tempesco, CMO
john.tempesco@icainformatics.com
615.866.1465

ICA’s CareAlign® care management solutions connect the healthcare community with proven interoperability technologies enabling health information exchange and improved care delivery. This patient-centered modular approach offers immediate value and return-on-investment to communities, IDNs, hospitals and physicians through the delivery of clinical information to the point-of-care improving quality while reducing costs. Visit booth #4831 for a demonstration of the CareAlign solution suite.

iMDsoft

Booth 4215

Contact: Steve Sperrazza, Vice President, North America Sales
sales@imd-soft.com
866.4 iMDsoft, 781.449.5567

iMDsoft is a leading provider of Clinical Information Systems for critical and perioperative care. The company’s flagship family of solutions, the MetaVision Suite, was first implemented in 1999. It captures, documents, analyzes, reports and stores the vast amount of patient-related data generated in a hospital. Over 125 hospitals worldwide use MetaVision to support their workflow, and arm their healthcare professionals with timely, accurate, and actionable information. iMDsoft products demonstrate 100% implementation success
rate and a 100% customer retention rate.

Come visit our booth to find out why 4 of the top 10 US hospitals have decided that MetaVision is the best choice for improving care quality and financial performance. Providing an integrated edge where it matters most, MetaVision delivers high-impact results such as 30% fewer mortalities, 100% billable anesthesia records, total elimination of prescription errors, 99% compliance with PQRS measures and doubled protocol compliance.

Learn more about how MetaVision interoperates with the latest technologies and seamlessly integrates with hospital systems at the HIMSS12 Interoperability Showcase held in collaboration with Integrating the Healthcare Enterprise (IHE), from 21-23 February.

Intelligent InSites

Booths 12217, 12442-18

Contact: George Sun, VP of Sales
george.sun@intelligentinsites.com
972.567.2114

Intelligent InSites helps hospitals improve care and reduce costs by transforming automatically-collected data into actionable insights. Through its interoperable, hardware-agnostic, healthcare real-time location system (RTLS) software platform, Intelligent InSites gathers data from real-time location, condition sensing, and other systems; then delivers meaningful information to the right person, at the right time, on the right device.
By leveraging this real-time data and InSites’ applications, such as asset management, patient flow, temperature monitoring, and business intelligence, healthcare organizations are able to achieve meaningful and measurable hard-dollar cost savings while improving patient satisfaction and patient care. The InSites RTLS solution for Patient Flow enables hospitals to improve capacity management and key metrics such as Left Without Treatment (LWOT) and Length of Stay (LOS). It also improves rounding management, along with ED and OR workflow. With the InSites solution, hospitals can monitor patient flow and progress from admission to discharge, analyze throughput and proactively react to potential bottlenecks – all in real-time. The InSites RTLS solution for Asset Management enables hospitals to optimize equipment inventories and equipment procurement, as well as reduce rental expenses. By eliminating time needed to find available equipment, hospitals can increase value-added time for nursing staff, clinical engineering, and facilities management, leading to improved patient and staff satisfaction. The InSites Business Intelligence (BI) solution enables easy-to-use data mining of vast quantities of contextual data stored in the InSites Business Intelligence database, allowing healthcare users to analyze trends, identify process improvement opportunities, and report on Key Performance Indicators (KPIs). This enables hospitals and healthcare systems to achieve powerful and flexible enterprise-wide visibility into their processes and make transformational impacts on their organization’s performance.

**MyHealthDIRECT**

**To schedule a meeting:**

Contact: Zac Fritz, SVP of Sales and Marketing
zfritz@myhealthdirect.com
262.309.2090
MyHealthDIRECT provides the nation’s only ‘healthcare scheduling exchange’ (HSE) for health plans, hospitals, health systems, ACOs and HIEs. Their SaaS-platform is proven “commercial-grade” and “enterprise-ready” and is scalable, flexible, and secure. The MyHealthDIRECT HSE-platform is the industry’s only technology with proven application across the entire care continuum: from care coordination efforts and call centers to mHealth initiatives or Direct-to-Consumer (D2C) strategies and ACO referral management. MyHealthDIRECT: The nation’s only ‘healthcare scheduling exchange’.

NextGate

Booth 7000

Contact: Richard Garcia, VP Marketing
richard.garcia@nextgate.com
626.262.4010

Information is good. Knowledge is better! The NextGate® Registry Suite for Healthcare goes beyond standard integration to satisfy today’s intricate, multi-entity healthcare data exchange requirements. HIEs, ACOs, IDNs and similar organizations need a dynamic, sophisticated framework to coordinate information from diverse sources to support coherent and meaningful data exchange. The registry suite uses the leading MatchMetrix® data integration platform to analyze and integrate the different data elements of a complex activity, promoting greater efficiency and insight. The suite includes an EMPI, Provider Registry and Directory, Location Registry, Activity Registry, Code Set Registry, Enterprise Transaction Registry, and a Relation service to define associations between objects. With over 75 million unique identities managed by MatchMetrix and hundreds of registry implementations, NextGate offers unequalled expertise in deploying master index and data integration solutions. Be certain about the data you exchange!

Nordic Consulting Partners, Inc.

To schedule a meeting:

Contact: Drew Madden, President
drew.madden@nordicwi.com
608.268.6900

Nordic was founded by former Epic consultants, and is the largest Epic-only implementation firm in the country. We focus exclusively on Epic software implementations. We’re located in Madison, WI, home to Epic Systems, Inc., which gives us access to some of the top EMR experts in the industry. Our team of senior
consultants average 6-year of Epic implementation experience; 80% are former Epic employees with an average of four certifications each. They’re seasoned professionals who have worked with hundreds of hospitals and clinics nationwide. Whether you need help with a short-term project, or a team of consultants to oversee implementation from start to finish, our staff will be valuable members of your team. Nordic works with healthcare organizations in 14 states, with clients that include Children’s hospitals, University hospitals and community healthcare providers of all sizes. We understand their dedication to patient care and the high standards their EMR projects must meet. Nordic will help you build the right team for your organization.

NTT DATA Healthcare Technologies (formerly Keane)

Booth 3064

Contact: Larry Kaiser, Senior Marketing Manager
lkaiser@keane.com
631.824.5318

In business since 1975 and based in the United States, NTT Data Healthcare Technologies offers complete IT solutions to hospitals and long-term care facilities throughout the country. NTT DATA’s proprietary software and services help health organizations increase efficiency, reduce medical errors, meet regulatory requirements, and enhance the revenue cycle. An electronic health record (EHR) solution, the Optimum suite of fully integrated certified clinical applications helps hospitals and healthcare facilities reduce medical errors, increase efficiency, and improve the delivery of care.

Stop by for a cup of cappuccino and find out how NTT DATA Healthcare Technologies can help you today.

Nuance Communications, Inc.

Orchestrate Healthcare

Booth 4269

Contact: Charlie Cook, President
charlie@orchestratehealthcare.com
970.963.0251

Orchestrate Healthcare won the 2011 Best in KLAS - Technical Services award. Come speak with us about why our KLAS score keeps rising every year and why we continue to win Best in KLAS awards. Orchestrate Healthcare was founded on the principals of: honesty, integrity and hard work. These key principals have lead to triple-digit growth since day one. Orchestrate Healthcare has also had tremendous success with our client feedback to KLAS Research. Orchestrate Healthcare won Best in KLAS - Technical Services in 2008. In 2009, we improved our KLAS score by a full point over our 2008 score, and placed 2nd in the 2009 Best in KLAS - Technical Services category. In 2010, Orchestrate Healthcare again increased our KLAS score to 94.2, but took 2nd place by 1/10th of a point. In 2011, we increased our score to 96.4 and won Best in KLAS – Technical Services for the 2nd time in the last 4 years. Out of 19 companies in the KLAS Technical Services category, Orchestrate Healthcare is the ONLY company to have 100% positive client commentary for the past 24 months. Orchestrate Healthcare has a philosophy of “do what’s right for the client” every day, and the management of the company stands behind you to do whatever it takes to exceed the client’s expectations. The KLAS scores and all the positive client commentary reflect that commitment to quality.

PatientKeeper Inc.

Booth 1045
Mobile Health Knowledge Center booth 12928

Contact: Cristina Christy, Senior Events Manager
cchristy@patientkeeper.com
PatientKeeper® Inc., the leading provider of physician healthcare information systems, offers hospitals and practice groups highly intuitive software that streamlines physician workflow to improve productivity and patient care. PatientKeeper’s CPOE, physician documentation, electronic charge capture and other applications are used by over 40,000 physicians nationwide, and run on desktop and laptop computers and popular handheld devices and tablets. PatientKeeper’s software integrates with existing healthcare information systems at hospitals and practice groups to create the most effective solution for driving physician adoption of technology, meeting Meaningful Use and transitioning to ICD-10. (www.patientkeeper.com; Twitter: @patientkeeper)

Practice Fusion

Booth 4074

Contact: Kimberly Okazaki, Marketing Coordinator
kokazaki@practicefusion.com
415.992.6462

Practice Fusion provides a free, web-based Electronic Health Record (EHR) system to physicians. With charting, scheduling, e-prescribing (eRx), lab integrations, referral letters, Meaningful Use certification, unlimited support and a Personal Health Record for patients, Practice Fusion’s EHR addresses the complex needs of today’s healthcare providers and disrupts the health IT status quo. Practice Fusion is the fastest growing EHR community in the country with more than 130,000 users serving 30 million patients. The company closed a $23 million Series B round of financing led by Founders Fund in 2011. For more information about Practice Fusion, please visit www.practicefusion.com.

Quality IT Partners, Inc.

To schedule a meeting:

Contact: Donna Eversole, MBA, BSN, RN, CPHIMS, Director Healthcare Practice
deversole@qitp.com
904.610.7933

Quality is a hands-on, technology-driven consulting company. We assist healthcare organizations with complete end-to-end systems planning, acquisition, customization, implementation and maintenance including technical and operational support. We specialize in assisting clients in transitioning from dated,
expensive legacy technologies to modern, cost-effective solutions using leading-edge implementation practices. Our implementation professionals are experienced clinicians and financial consultants and have experience with all major HIS vendors. We view each assignment as an opportunity to transfer our knowledge and experiences to our clients’ staff.

Shareable Ink

Booth 7100

Contact: Suzanne Cogan, Vice President, Sales and Marketing scogan@shareableink.com 877.572.7423 x802

Shareable Ink is the enterprise cloud-based platform that incorporates natural input tools, including iPads and digital pen and paper technology. Clinicians can continue documenting in the fastest, most efficient manner. The resulting structured and clinically-encoded output populates the EHR with discrete data, as if typed in directly. Built-in analytics give hospitals and practices insight into their operations – from a clinical, quality, and efficiency standpoint.

Information Week recently named Shareable Ink one of 12 EHR vendors that “stand out” – out of 1,300 Meaningful Use-certified systems. Visit us at HIMSS for an interactive demo featuring our Physician Progress Notes with Charge Capture and Patient History & Signature Capture solutions. We’ll also have a special unveiling of our iPad App – you won’t want to miss it! For everyone who mentions ‘DOCTOR’ at our booth, we’ll be making a donation to one of our favorite charities, Doctors without Borders.

SRSsoft

Booth 12721

Contact: Evan Steele, CEO esteele@srssoft.com 800.288.8369

SRS is the leading provider of productivity-enhancing EHR technology and services for high-performance physicians—with a successful adoption rate unparalleled in the industry. Offered via the Unified Desktop™, the robust EHR, SRS CareTracker PM, SRS PACS, and SRS Patient Portal increase speed, boost revenue, free physicians’ time, and heighten patient care and satisfaction. For more information on SRS, visit www.srssoft.com, e-mail info@srssoft.com, fax 201.802.1301, or call 800.288.8369.
Software Testing Solutions

To schedule a meeting:

Contact: Maegan Scarlett, Marketing Specialist
himss@sts-healthcare.com
877.765.0100 ext. 1

You’re not still running those old terminal based legacy applications in your institution for CPOE, lab, blood bank and anatomic pathology – so why are you still testing them the same way? Now you can achieve a predictable time, cost and quality for your upgrades. Software Testing Solutions’ (STS) innovative automated testing & validation products for hospital software systems including Epic, Sunquest and SCC Soft, deliver exhaustive testing quickly and efficiently, saving time & money while reducing risk, increasing patient safety and ensuring regulatory compliance. Contact us today for more information.

Streamline Health

Booth 2058

Contact: Rick Leach, Senior Vice President and Chief Marketing Officer
rick.leach@streamlinehealth.net
513.794.7112

Streamline Health provides healthcare information technology solutions that help hospitals and physician groups improve efficiencies and business processes across the enterprise to enhance and protect the revenues. Our enterprise content management solutions transform unstructured data into digital assets that seamlessly integrate with disparate clinical, administrative, and financial information systems. Our business analytics solutions provide real-time access to key performance metrics that enable healthcare organizations to identify and manage opportunities to maximize their financial performance. Our integrated workflow systems automate and manage critical business activities to improve organizational accountability to drive both operational and financial performance. For more information visit www.streamlinehealth.net.

Sunquest Information Systems, Inc.
Sunquest Information Systems, Inc.

**Booth 423**

Contact: Kymberly Calvo, Marketing Communications Specialist  
kymberly.calvo@sunquestinfo.com  
408.702.1151

Sunquest Information Systems is committed to patient safety, workflow excellence, predictive medicine, and physician & patient affinity. Surgical Information Systems

**Booth 1339**

Allscripts Booth 3016  
Siemens Booth 2423  
Interoperability Showcase Booth 11000, Hall G

Contact: Emmy Weber, VP of Marketing  
weber@sisfirst.com  
678.507.1706

Surgical Information Systems ("SIS") provides software solutions that are uniquely designed to add value at every point of the perioperative process. Developed specifically for the complex surgical environment, all SIS solutions – including anesthesia – are architected on a single database and integrate easily with other hospital systems. SIS offers the only surgical scheduling system and the only anesthesia information management system endorsed by the American Hospital Association (AHA), and both a rules-based charging system and analytics module that has been granted Peer Reviewed status by the Healthcare Financial Management Association (HFMA). Visit SIS at HIMSS12 to see the latest in perioperative IT including anesthesia, patient tracking and analytics modules.
Transcend Services and Salar

Booth 4674

Contact: Donna Rhines, Director of Marketing
donna.rhines@trcr.com
678.808.0680

Transcend/Salar delivers clinical documentation solutions that are flexible to fit the needs of our clients. We offer the industry’s only physician-centric, single-source solution for advanced electronic clinical documentation. Our full spectrum of services and products include: full- to partial-outsourced transcription services, a world-class transcription platform, dynamic clinical documentation templates and physician charge capture.

Transcend/Salar products have highly-customizable physician interfaces that integrate easily with existing electronic medical record systems. Clients that utilize Transcend experience increased physician adoption through flexible solutions that fit the physician workflow. With Transcend/Salar, physicians and hospitals alike achieve notable productivity, financial and patient safety improvements. Encore™, Transcend’s powerful backend speech recognition transcription platform and Salar’s transformational, physician-centric, inpatient documentation and billing products (TeamNotes™, TeamRelay™, TeamQuery™ and TAP Charge Capture™). Experience a demo or a presentation and see how you can benefit.

- Substantial cost savings
- Improved efficiency and significant productivity increases
- Expedited physician workflow and optimized physician billing
- Real-time physician query and concurrent documentation review + Increased inpatient revenue
- Meaningful Use Stage 1 certification
T-System

Booth 4012

Contact: Ann Baty, Senior Marketing Coordinator
abaty@tsystem.com
469.791.2445

T-System, Inc. sets the industry standard for clinical, business and IT solutions for emergency medicine, with approximately 40 percent of the nation's emergency departments using T-System solutions. To meet the individual needs of hospitals, T-System offers both paper and electronic systems. These tools help clinicians provide better patient care, while improving efficiency and the bottom line. Today, more than 1,700 emergency departments rely on T-System's gold-standard content and workflow solutions. For more information, visit www.tsystem.com. Follow T-System on Twitter (@TSystem) and like T-System on Facebook.

Stop by our “virtual” emergency department at Booth 4012 to see and try our solutions in action. Find out how The T SystemEV has helped more than 42 hospitals attest to Stage 1 Meaningful Use. Learn about how our new revenue cycle management services can boost your bottom line. Document a patient encounter with DigitalShare and T Sheets or try T-System clinical decision support. Answer a question about Continuity, our new ACO solution, for a chance to win an iPad 2.

We will also be demonstrating at the Interoperability Showcase (Hall G, Booth #11000) how the emergency department might contribute information that would enable a smoother transition of care. T-System Vice President of Solution Development Bill Hall will give a presentation, “Interoperability and the ED: Replacing Care Transactions with Transitions,” at the Showcase on Tuesday at 1:15 p.m. Additionally, two T-System clients will be presenting the senior executive session, “Emergency Medicine EHR Helps Drive Meaningful Use Readiness” on Tuesday at 11 a.m. in Marcello 4506. To learn more about these presentations and our industry leading ED solutions, visit us at Booth 4012.

Versus Technology

Booth 5852

Contact: Stephanie Bertschy, Director of Marketing
skb@versustech.com
231-946-5868

Versus gives healthcare institutions the power to locate patients, staff and equipment in real-time, and automate a multitude of clinical tasks. The result: optimized workflow, improved patient care and streamlined processes that set a higher standard in healthcare. Since 1988, hundreds of hospitals have strengthened performance with Versus locating advantages.
Vitalize Consulting Solutions, an SAIC company

Booth 3338

Contact: Cyndi Cahill, SVP Marketing and Sales Support
ccahill@getvitalized.com
610.444.1233

Vitalize Consulting Solutions, an SAIC company (VCS) provides diversified clinical, business, and IT solutions for healthcare enterprises nationwide and in Canada. VCS’ comprehensive programs and services lineup includes system implementation, integration, optimization, project management, custom reporting, education, and knowledge transfer expertise. To facilitate clients’ strategic IT initiatives, our consultants first listen to, then advise, and ultimately strengthen their customers’ IT team. Primarily engaged with Allscripts™, Cerner, Epic, McKesson, MEDITECH and Siemens users, and the Ambulatory and Practice Management arenas, VCS cultivates enduring relationships by supplying experienced professionals who consistently exceed clients’ expectations. Since being acquired by Science Applications International Corporation (SAIC) in August 2011, VCS is now able to provide expanded service lines to its current and future clients, ultimately strengthening our solutions. Please visit us at www.getvitalized.com for more information.

Vocera Communications, Inc.

Booth 2245
HIMSS Interoperability Showcase

Contact: Diana Cropley, Marketing
info@vocera.com
800.331.6356

Vocera provides mobile communication solutions focused on addressing critical communication challenges facing hospitals today. We help our customers improve patient safety and satisfaction, and increase hospital efficiency and productivity through our Voice Communication, Secure Messaging, and Care Transition solutions. Exclusively endorsed by the American Hospital Association, the Vocera solutions are installed in more than 800 hospitals and healthcare facilities worldwide.

Winthrop Resources

To schedule a meeting:

Contact: Dan Murray, Director of Business Development
Winthrop provides custom technology leasing solutions allowing hospitals to remain independent of technology providers, to refresh technology when needed, and to preserve cash. We believe that spending cash or bank financing to buy technology assets doesn’t make sense since those assets lose value quickly, require increasing expense to keep running, and need to be upgraded and changed to support organizational goals and regulatory requirements.

ZirMed

Booth 3638

We’re ZirMed, a leading provider of healthcare revenue cycle technology and information solutions. Serving 113,000 healthcare providers across all care settings who in turn provide services to more than 1 in every 10 Americans, we are a nationally recognized leader in understanding the flow of money and information in healthcare. Addressing the entire revenue cycle, our offerings include eligibility verification, claims management, patient payment estimation, patient payment processing, online bill pay, online and offline statement delivery, innovative lockbox services, analytics, coding compliance, and more. Delivered via a SaaS model, our solutions are compatible with any industry standard Healthcare Information or Practice Management System, and can be used directly within the ZirMed domain or embedded within partner software applications. ZirMed received a “Best in KLAS” ranking for 2011 from independent healthcare IT research firm KLAS, and ranked #1 in overall satisfaction three years in a row. For more information about how our solutions simplify the complexities of payments for providers and patients visit www.zirmed.com.
